ADVANCING CHARGES

▲ Best Overnite Express does not advance charges of any kind.

340
▲

ATTEMPTED DELIVERY

Carrier shall charge a fee of **\$5.10 per cwt**, subject to a **▲ \$100.00 Minimum Charge**, given the following circumstances:

1. If freight cannot be delivered because of the consignee's refusal or inability to accept it, because the carrier cannot locate the consignee, or if the freight cannot be transported because of an error or omission on the part of the consignor, the carrier will make a diligent effort to notify the consignor promptly that the freight is in storage and the reason therefore.
2. Undelivered shipments will be subject to applicable storage or detention charges.

355
▲

BILL of LADING, GENERAL

This Rules Tariff is an integral part of the bill of lading Contract and of all contractual relationships of the carrier. This Rules Tariff contains the Terms and Conditions specifically governing the bill of lading, Loss and Damage Claims, Overcharges, Undercharges and related matters. Refer exclusively to this Rules Tariff to determine the process and time limitations in effect. If there is a conflict between the carrier's Tariffs and Contracts and any governing publication, or any bill of lading or other shipping document prepared in connection with a shipment, **▲ Best Overnite Express' Rules Tariff** will take precedence.

▲ All references made to Rates or "Rates on File" mean pricing executed in Best Overnite Express' TMS. Such rates shall be available to shippers to manually obtain rate quotes on TMS or through software integration.

Any alteration, addition or erasure in the carrier's bill of lading which is made without the special notation thereon of the agent of the carrier issuing this bill of lading, shall be without effect, and the bill of lading shall be enforceable according to its original tenor.

Any party requesting a copy of a particular bill of lading will be assessed **\$10.00**.

Special BOL instructions that conflict with carrier rules tariff provisions shall be null and void in all cases.

A shipper or paying party may not tender two bills of lading on a single day for the same consignee to avoid linear foot rating or volume shipment pricing. In these cases, the two bills of lading will be mastered billed as one shipment and rated on carrier linear foot rule or per customer rate agreement as it pertains to linear foot should customer have an exception published to carrier default linear foot rule. If linear foot rating does not yield a higher freight charge, the total charges for billing the shipments individually will be used.

A shipper or paying party may not tender two bills of lading on a single day for the same consignee and request master billing after freight tender in an effort to reduce overall freight charges. Master billing is offered with advanced notification and is charged according to carrier rules tariff for master billing services.

Carrier will assess a surcharge of **\$20.00** per bill of lading to be master billed.

Bill of lading adjustments or errors on the part of the shipper or paying party which reduce the freight charges must be reported within **twenty-four (24) hours** of freight tender for the correction/adjustment to be made for the standard fee of **\$20.00** per bill of lading correction. After **twenty-four (24) hours**, carrier has sole discretion to make any adjustments.

▲ Any Bill of Lading change(s) that adjust the delivery address will also require Relabeling Service (see Item 878).

BILL of LADING, GENERAL (concluded)

concl
▲**

Bills of lading with no class or NMFC number represented will be billed using a default class of 175. If debtor has an FAK, then FAK for class 175 will apply. Adjustments to default class rating will be at Carrier's discretion if requested post delivery.

Special instructions, stamps or notations on Bill of Lading indicating that delivery accessorial services are not authorized or must be approved in advance are null and void. It is the responsibility of the bill of lading preparer to ensure all necessary delivery services are noted accordingly on the bill of lading presented to Carrier. In the absence of a consignee required service being noted on the bill of lading and Carrier is made aware of service need at time of delivery, it is at the Carrier's discretion to perform the required service and add applicable service fees without prior authorization or notification to bill of lading preparer or paying party. Performing the service when safe and possible provides savings to the paying party by avoiding redelivery, delivery attempt and storage charges in addition to the required services not noted on the original bill of lading.

Please also see Section 2 of this Rules Tariff, "Bill of Lading Contract Terms and Conditions".

BLIND SHIPMENT

365

A blind shipment occurs when a shipper and/or consignee desire to conceal their identity from one another. For such a shipment, carrier shall charge **\$150.00 per shipment**. Dynamic company name changes for a known shipper at one address also constitutes a blind shipment.

Requirements parties ordering blind shipments must adhere to in order to ensure the Carrier is fully complaint with the blind shipment request are as follows:

1. The carrier must be notified in advance of shipment tender. Notification can be written or verbal.
2. Ordering party must provide the proper documentation.

Both requirements must be met for Carrier to execute proper handling of a tender as a blind shipment.

Proper documentation includes:

1. A bill of lading representing the true origin, destination, shipper, consignee and paying party names with a stamp or note in the freight description area indicating the shipment is to be handled as a blind shipment.
2. A secondary bill of lading representing the details of the blind shipping information the ordering party wishes to be displayed on the documentation the carrier will use to perform the blind pickup or blind delivery.

Blind shipment requests cannot be honored by Carrier without advanced notification or proper documentation. Carrier will not be responsible for any monetary losses, intangible losses, costs associated with lost time, inconveniences or transportation errors and expenses related to blind shipment orders lacking advanced notification to carrier or proper documentation.

CLAIMS and OVERCHARGES

▲

As a condition precedent to recovery, claims and suits must be accompanied by the original paid bill for transportation, (or a copy of same notarized as identical) and wholesale invoice or proof of the goods wholesale value and must be filed in writing with the carrier as follows:

1: Such claims must be filed within **nine (9) months** after the delivery of the property (or, in the case of export traffic, within nine months after delivery at the port or export), except that claims for failure to make delivery must be filed within nine months after a reasonable time for delivery has elapsed.

Claims for damaged goods or hidden damage require that all damaged goods and packing materials be kept in received condition for inspection by the carrier. Packaging which is insufficient to protect goods from the normal rigors of transportation will invalidate damage claims.

▲ Concealed damage/shortage claims must be reported within 48 hours of delivery and will be paid at **one-third (1/3)** the paying party's published release value or carrier's default release value. No concealed damage/shortage claims will be paid without notification within 48 hours of delivery. Notations such as "Subject to inspection" or "Inspection needed" will not suffice as notification. All notifications need to be reported to either claimsdepartment@bestovernite.com or customerservice@bestovernite.com.

Claims for shortages where bills of lading indicate number of handling units only and do not indicate a total piece count said to be contained in declared handling units will be denied.

In no instance will a shipment's release value or claim be paid at a value higher than the NMFC published release value for the shipment's actual class or FAK class if FAK pricing is used.

2: Maximum carrier liability is limited as provided in "Limitation of Liability" and in the Bill of Lading Terms and Conditions Appendix of this Rules Tariff.

3: Shipments governed by this publication are to be transported with normal and reasonable dispatch in time for no particular market.

4: Suits for overcharges shall be instituted against any carrier no later than **eighteen (18) months** from the date when written notice is sent by the carrier to the claimant that the carrier has disallowed the claim or any part or parts of the claim specified in the notice. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, the carrier shall NOT be liable, and such claims will NOT be paid.

5: Suits for undercharges shall be instituted against the shipper, consignee, or payer of the freight charges no later than **eighteen (18) months** from the post mark date when written notice is sent to the carrier by the party responsible for freight charges that such party has disallowed the claim or any part or parts of the claim specified in the notice. CLAIMS PROCEDURES

SALVAGE RETENTION

When visible or open damage to a shipment has been established by notation having been given at time of delivery or concealed damage established by inspection report, it is the duty of the consignee to retain damaged merchandise and shipping container until carrier desires to take possession of merchandise as salvage. If record conclusively reflects carrier liability, carrier will take possession of the damaged merchandise within 30 days from date shipment was noted damaged on carrier delivery receipt or from date of inspection report, if damage was concealed. If carrier does not take possession of the damaged merchandise within the time prescribed above, consignee must contact delivering carrier in writing or electronically and request removal of goods from their premises within 15 days from the date of such communication. The above applies only when the carrier and consignee agree that the carrier will handle disposition of the salvage, and does not in any manner affect the legal duty that the consignee, when there is substantial value in the salvage, must accept and handle it in such a manner as to mitigate the carrier's loss as much as possible. If there is doubt of carrier liability, the carrier will so advise consignee; in which event the consignee may hold the merchandise until liability of carrier is determined, or may dispose of it so as to mitigate the damage, and may file claim for such damage. Carrier will remove the damaged goods within the **five (5) day** period or advise consignee that carrier liability is in doubt and that damaged merchandise is to be retained by the consignee until carrier has completed investigation of the claim.

- E. Unless otherwise specified by the carrier, notice of loss or damage **must** be provided to the carrier within **forty-eight (48) hours, or two (2) business days**, from the date of delivery. **Claims for concealed damage reported after forty-eight (48) hours from delivery will be declined.**
- F. If **forty-eight (48) hours, or two (2) business days**, pass between the date of delivery of the shipment by carrier and date of report of loss or damage and request for inspection by consignee, shipper, or party receiving freight bill, **it is incumbent upon the consignee to offer reasonable evidence to the carrier's representative when inspection is made that loss or damage was not incurred by the consignee after delivery of shipment by carrier.**

- I. If a clear delivery receipt is available on the shipment, e.g. no damage or shortage is noted, the claimant must provide documentation showing that damage or loss occurred prior to delivery.

INSPECTION BY CARRIER

Inspection will be made within **five (5) business days** after receipt of a written or electronic request from consignee, shipper or party receiving freight bill, excluding Saturdays, Sundays and holidays. A day will be considered as the passing of **twenty-four (24) hours** from 9 A.M., local time from the date of receipt of request for inspection. Inspection will include examination of the damaged merchandise, the shipping container, and any other action necessary to establish all facts. If a shortage is involved, inspector will check the contents of package with invoice, weigh the shipping container and contents, or conduct any other type of investigation necessary to establish that a loss has occurred. In either case inspection will be limited to factual report. Consignee, shipper, or party receiving freight bill must cooperate with carrier in every way possible to assist in the inspection. BILLS of LADING			2100

BILL of LADING CONTRACT TERMS and CONDITIONS:

Sec. 1. (a) The carrier or the party in possession of any of the property described in the carrier's Bill of Lading shall be liable as at common law for any loss or damage thereto, except as hereinafter provided.

(b) No carrier shall be liable for any loss of or damage to a shipment or for any delay caused by an Act of God, the public enemy, the authority of law or the act or default of the shipper. Except in the case of negligence of the carrier or party in possession, the carrier or the party in possession shall not be liable for loss, damage or delay which results: when the property is stopped and held in transit upon request of the shipper, owner or party entitled to make such request; or from faulty or impassable highway, or by lack of capacity of any highway, bridge or ferry, or from a defect or vice in the property, or from riots or strikes. The burden to prove freedom from negligence is on the carrier or the party in possession.

Sec. 2. Unless arranged or agreed upon in writing, prior to shipment, the carrier is not bound to transport a shipment by a particular or in time for any particular market, but is responsible to transport with **reasonable dispatch**. In the case of physical necessity, the carrier may forward a shipment via another carrier.

Sec. 3. (a) As a condition precedent to recovery, claims must be filed in writing with the carrier as provided herein.

(b) Claims for loss or damage must be filed within **nine months** after the delivery of the property (or, in the case of export traffic, within nine months after delivery at the port of export), except that claims for failure to make delivery must be filed within nine months after a reasonable time for delivery has elapsed.

(c) Suits for loss, damage, injury or delay shall be instituted against any carrier no later than **two years and one day** from the day when written notice is given by the carrier to the claimant that the carrier has disallowed the claim or any part or parts of the claim specified in the notice. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, no carrier shall be liable, and such claims will not be paid.

(d) Any carrier or party liable for loss or damage to any of said property shall have the full benefit of any insurance that may have been affected, upon or on account of said property, so far as this shall not void the policies or contracts of insurance, PROVIDED, that the carrier receiving the benefit of such insurance will reimburse the claimant for the premium paid on the insurance policy or contract.

Sec. 4. (a) If the consignee refuses the shipment tendered for delivery by the carrier or if the carrier is unable to deliver the shipment because of fault or mistake of the shipper or consignee, the carrier's liability shall then become that of a warehouseman. The carrier shall promptly attempt to provide notice, by telephonic or electronic communication as provided on the face of the bill of lading, if so indicated, to the shipper or the party, if any, designated to receive notice on this bill of lading. Storage charges, based on the carrier's provisions in effect, shall start no sooner than the **next business day** following the attempted notification. Storage may be, at the carrier's option, in any location that provides reasonable protection against loss or damage. The carrier may place the shipment in public storage at the owner's expense and without liability to the carrier.

(b) If the carrier does not receive disposition instructions within **48 hours** of the time of the carrier's attempted first notification, the carrier will attempt to issue a second and final confirmed notification. Such note shall advise that if the carrier does not receive disposition instructions within **10 days** of that notification, the carrier may offer the shipment for sale at a public auction and the carrier has the right to offer the shipment for sale. The amount of sale will be applied to the carrier's invoice for transportation and other lawful charges. The owner will be responsible for the balance of charges not covered by the sale of goods. If there is a balance remaining after all charges and expenses are paid, such balance will be paid to the owner of the property sold hereunder, upon claim and proof of ownership.

(c) Where the carrier has attempted to follow the procedures set forth in subsections 4(a) and (b) above and the procedure provided in this section is not possible, nothing in this section shall be construed to abridge the right of the carrier at its option to sell the property under such circumstances and in such manner as may be authorized by law. When perishable goods can not be delivered and disposition is not given within a reasonable time, the carrier may dispose of property to the best advantage.

(d) Where the carrier is directed by the consignee or shipper to unload or delivery property at a particular location where the shipper, consignee, or the agent of either, is not regularly located, the risk after unloading or delivery shall not be that of the carrier.

Sec 5. (a) In all cases not prohibited by law, where a lower value than the actual value of the said property has been stated in writing by the shipper or has been agreed upon in writing as the released value of the property on which the rate is based, such lower value plus freight charges if paid shall be the maximum recoverable amount for loss or damage, whether or not such loss or damage occurs from negligence.

(b) No carrier hereunder will carry or be liable in any way for any documents, coin, money, or for any articles of extraordinary value not specifically rated unless a special agreement to do so and a stipulated value of the articles are endorsed on the bill of lading.

Sec. 6. Every party, whether principal or agent, who ships explosives or dangerous goods, without previous full written disclosure to the carrier of their nature, shall be liable for and indemnify the carrier against all loss or damage caused by such goods. Such goods may be warehoused at the owner’s risk and expense or destroyed without compensation.

Sec. 7. (a) The shipper or the consignee shall be liable for the freight and other lawful charges accruing on the shipment, as billed or corrected, except that collect shipments may move without recourse to the shipper when the shipper so stipulates by signature or endorsement in the space provided on the face of the bill of lading. Nevertheless, the shipper shall remain liable for transportation charges where there has been an erroneous determination of the freight charges assessed, based upon incomplete or incorrect information provided by the shipper.

(b) Notwithstanding the provisions of subsection (a) above, the consignee’s liability for payment of additional charges that may be found to be due upon delivery shall be specified by 49 U.S.C. §13706, except that the consignee need not provide the specified written notice to the delivering carrier if the consignee is a for-hire carrier.

(c) Nothing in this bill of lading shall limit the right of the carrier to require the payment or guarantee of the charges at the time of shipment prior to delivery. If the description of articles or other information on the carrier’s bill of lading is found to be incorrect or incomplete, the freight charges must be paid on the articles actually shipped.

Sec. 8. If the carrier’s bill of lading is issued on the order of the shipper or his agent, in exchange or in substitution for another bill of lading, the shipper’s signature on the prior bill of lading or in connection with the prior bill of lading as to the statement of value or otherwise, or as to the election of common law or bill of lading liability shall be considered a part of the carrier’s bill of lading as fully as if the same were written on or made in connection with the carrier’s bill of lading.

Sec. 9. If all or any part of said property is carried by water over any part of said route, such water carrier shall be performed subject to the terms and provisions and limitations of liability specified by the “Carriage of Goods by Sea Act” and any other pertinent laws applicable to water carriers.
